

Rod Mount NN-RM

**Rod Mount for NeuroNexus Probes
and for Micro and Miniature Preampifiers**

Diameter of the head of the NN-RM

Dimensions of the head of the NN-RM

NN-RM connected to a Holding and Positioning Unit (**HPU**) and a **μPA32** preamplifier via **mounting plate**.

Example: Adapter mounted on the NN-RM.

NeuroNexus Probe fixed on an adapter

Applications

It is possible to connect various adapters to the rod mount. Working with different adapters you can add different probes, for example ADPT-NN-8 or ADPT-NN-32.

To connect one of the micro or miniature preampifiers μ PA16 or μ PA32 or MPA8 or MPA32 from Multi Channel Systems MCS GmbH directly to the NN-RM rod mount, please use the provided mounting plates.

Scope of delivery:

- 1 rod mount (stainless steel) for manipulator, length 200 mm, diameter 8 mm
- 1 grounding cable with multi-disk connector
- 2 screws (M3x6) to fix the adapter for the NeuroNexus Probe
